NEWS

Computer and Internet Lawyer

Guidance for resolving problems that face manufacturers, developers, distributors, and users of computer, telecommunication and online products and services.

Cybersecurity and Privacy News

Curated news on Cybersecurity and Privacy issues pulled from all Wolters Kluwer Daily products.

Cybersecurity Policy Report

Detailed, unbiased reporting on legislation, regulation, and policy rulings that goes deeper than the surface-level. Providing “early warning” coverage of policy developments, such as regulations as they are being proposed and legislation as it being drafted, to give you time to try to shape the debate and to prepare for any new policies.

Financial Privacy Law Guide Newsletter

A complete and comprehensive resource to keep you up-to-date with the rapidly evolving and expanding area of financial privacy, including data security breach notification.

Guide to Computer Law Newsletters

Zeroing in on traditional computer law issues and emerging areas of regulation, it covers antitrust, privacy and security torts, electronic evidence and international agreements relating to technology.

Intellectual Property & Technology Law Journal

Authored by expert practitioners, solve practical problems with “how-to” articles on such topics as exit interviews, investigating the activities of former employees or competitors, and conducting an intellectual property audit.

Journal of Internet Law

Latest developments in cyberspace law with detailed analysis of the latest cases and regulatory changes and their impact on your clients’ businesses.

TOOLS

Breach Notification Smart Charts

Provides information on a variety of issues concerning state data security and information breach notification laws.

Global Privacy and Security Law Comparison Charts

Compares privacy and cybersecurity topics, including applicable laws and enforcement, across multiple countries and jurisdictions.

Marketing & Privacy Laws Smart Charts

Provides quick reference information on frequently referenced marketing-related privacy laws enacted in all 50 states and the District of Columbia.

State and Federal Employee Privacy Law Comparison Charts

Provides succinct summaries of state and federal privacy laws and regulations, citations, and links to the full text of those laws and regulations. Choose your topics, choose your states, and instantly compare multiple states laws on that topic(s) in a convenient chart format. Fifty-two jurisdictions plus federal are included.

TREATISES

COMING SOON!

Defend Trade Secrets Act of 2016

Halligan, Krotoski, Stevens and Toren

Defend Trade Secrets Act of 2016 Handbook is a “must have” resource for anyone who needs to know how this new law will affect trade secrets litigation. In one comprehensive volume it provides all the necessary analysis, primary source material and forms to jumpstart your knowledge of this new statute and its implications.

Digital Communications Law

Henry H. Perritt, Jr.

This complete resource helps you address a multitude of internet-related legal issues—from questions of liability connected to sales and online communications to issues of taxation.

Financial Privacy Law Guide

A complete and comprehensive resource with the full text of regulatory releases, agency letters, and court decisions from 2001 to the present to keep you up-to-date with the rapidly expanding area of financial privacy. Federal and state topics are explained, with case annotations included. Agency issuances that provide interpretive guidance and policy statements follow the laws and regulations.

Global Privacy and Security Law

Francoise Gilbert

Sixty-eight clear and concise country reports make this the single, necessary resource for research into privacy and security, data protection laws, and the specific regulations of key countries around the world, delivering completely up-to-date information on every country covered. Includes easy cross-country comparison in chart form, expert analysis of every major directive, and precise practice tips.

HIPAA Compliance Handbook

Easy-to-understand explanations of the legal and regulatory aspects of HIPAA, offering analysis of the Administrative Simplification regulations that implement provisions of the Health Insurance Portability and Accountability Act of 1996. Detail of the transaction, privacy, and security, and it addresses issues specific to employer-sponsored group health plans, as well as a state by state guide to medical privacy statutes.

HIPAA: A Guide to Health Care Privacy and Security Law

Lisa M. Boyle

The perfect resource to remain compliant with HIPAA's exacting standards, providing coverage the HIPAA Omnibus Rule, updated forms and resources, coverage of both state and federal legal requirements, and guidance on avoiding civil and criminal penalties, and clear explanations of every HIPAA privacy and security rule, as well as comprehensive analysis of the Department of Health and Human Services (HHS) regulations, as well as practical compliance strategies.

International Encyclopedia of Laws: Cyber Law

A series of national monographs, treating the different legal subjects related to information and communication technology on the basis of a common standard outline, as well as monographs on supranational and international cyber law issues, including monographs on European Union Cyber Law, and International and Global Telecommunications Law. The Encyclopedia also offers International Cyber Law Codex with important international texts in this field.

Law of Electronic Commerce

Jane Kaufman Winn & Benjamin Wright

This cutting edge legal resource provides practice pointers and in-depth, timely analysis of electronic contracting, electronic payments and lending, intellectual property rights and rights in data, privacy and collections of data, E-business regulation, including antitrust, trade practices, securities and banking, taxation of electronic commerce, security, and liability.

Law of the Internet

George B. Delta & Jeffrey H. Matsuura

A comprehensive overview of internet law offering everything necessary to navigate the myriad of topics related to the Internet. The authors identify the legal issues that arise from the use of the Internet and its applications, providing incisive analysis of how existing law applies.

Libel and Privacy

Bruce W. Sanford

One of the nation's leading First Amendment attorneys provides media counsel with up-to-date information on how to avoid litigation, the "public person," settlement and pretrial tactics, winning trial tactics and cost minimization techniques; with ample case analysis. Complete assessment of how the U.S. Supreme Court is now approaching constitutional libel law and setting the boundaries for invasion of privacy suits.

Privacy and Cybersecurity Law Deskbook

Lisa J. Sotito

Authored by one of the world's foremost legal practitioners in the field, this is an essential compliance resource for every privacy officer and attorney involved in managing privacy and data security issues. It offers thorough, practical, sector-specific guidance that provides a roadmap for navigating the complex and emerging areas of privacy and cybersecurity law, and minimizing the impact of data breaches.

Scott on Information Technology Law

Michael D. Scott

Whether you're an experienced IT lawyer, a transactional or intellectual property attorney, an industry executive, or a general practitioner, you'll find practical, expert guidance on recent computer crime and cybercrime cases and new legislation, identifying and protecting intellectual property rights, and drafting effective software marketing and other software agreements.

Scott on Multimedia Law

Michael D. Scott

Completely current resource that can take you from start to finish throughout the complex multimedia arena. Based on years of professional experience, the author combines reliable analysis of the substantive law with practical, how-to advice, including insightful discussions of key topics and analysis of various trends and practices in multimedia law. It offers more than 60 forms covering numerous transactions across a wide variety of media.

Securities Regulation in Cyberspace

Howard Friedman

Expert analysis of the interweaving of technology and the securities laws. An in-depth review of the ongoing impact of technological and securities regulation, addressing electronic delivery of disclosure, both in securities offerings and to satisfy ongoing Exchange Act obligations. Coverage of the state and federal regulation of offering of securities electronically, both domestically and internationally.
