COPYRIGHT

Copyright Law Reporter

Contains the full text of federal laws, precedent-setting court decisions, annotated explanations, Copyright Office forms, circulars and reference materials.

Drafting License Agreements

Twenty-three renowned experts provide in-depth licensing know-how, drafting techniques, time-saving clauses and provisions, and full-length model license agreements.

Epstein on Intellectual Property

Up-to-date coverage of the law of trade secrets, copyright, trademarks and patents.

Goldstein on Copyright

Expert guidance and analysis on all areas of copyright law, including copyright transfer, infringement, defenses, the fair use defense, remedies (injunction and damages), procedural issues (jurisdiction pleadings, trial practice) and copyright protection.

Handbook of Intellectual Property Claims and Remedies

A detailed guide at how to maximize or minimize possible remedies at all stages of litigation, from pre-filing decisions through appeal.

Intellectual Property Legal Opinions

Covers all forms of IP legal opinions including patentability, infringement, validity, corporate due diligence, and litigation.

IP Law Daily

Expert analysis and summaries on intellectual property cases, regulatory or statutory developments and breaking news delivered daily to your inbox.

License Agreements: Forms and Checklists

The one-step resource for all the critical tools needed to draft, negotiate, and finalize licensing deals more quickly and effectively.

Licensing Update

The definitive one-volume handbook covering the year's most significant cases, developments and trends in licensing

Perle, Williams, and Fischer on Publishing Law

Coverage and expert analysis on the relationship between writer/publisher and publisher/public, including the latest developments in all areas of publishing law.

Trademark and Copyright Disputes: Litigation Forms and Analysis

Organized in the sequence of litigation, provides timesaving, practice-proven forms, checklists, and analysis that help handle an intellectual property dispute.

TRADEMARK AND ADVERTISING

Advertising Law Guide

Full-text reporting of state and federal laws, federal regulations, federal cases, industry self-regulatory guidelines, and new developments with expert analysis.

Allen's Trademark Digest

A monthly newsletter that organizes, classifies and analyzes both published and unpublished decisions from the Trademark Trial and Appeal Board.

Do's and Don'ts in Advertising

Guidance in the area of advertising, marketing, and promotions law.

Drafting License Agreements

Twenty-three renowned experts provide in-depth licensing know-how, drafting techniques, time-saving clauses and provisions, and full-length model license agreements.

Epstein on Intellectual Property

Up-to-date coverage of the law of trade secrets, copyright, trademarks and patents.

Guide to Registering Trademarks

Time-saving guidance on all aspects of federal trademark prosecution practice.

Guide to TTAB Practice

Step-by-step guidance through the entire process of practice before the Trademark Trial and Appeal Board.

Handbook of Intellectual Property Claims and Remedies

A detailed guide at how to maximize or minimize possible remedies at all stages of litigation, from pre-filing decisions through appeal.

Intellectual Property Legal Opinions

Covers all forms of IP legal opinions including patentability, infringement, validity, corporate due diligence, and litigation.

IP Law Daily

Expert analysis and summaries on intellectual property cases, regulatory or statutory developments and breaking news delivered daily to your inbox.

IP Litigator

The latest thinking, strategies, guidance and practice tips from top litigators and industry experts in patent, copyright, ITC and customs, trademark, and international litigation.

License Agreements: Forms and Checklists

The one-step resource for all the critical tools needed to draft, negotiate, and finalize licensing deals more quickly and effectively.

Licensing Journal

The leading source of in-depth, practice-oriented licensing guidance by top attorneys in intellectual property, computer technology, and entertainment law.

Licensing Royalty Rates

Access the "going" royalty rate for virtually any product, including over 1,500 products and services in ten lucrative licensing categories.

Licensing Update

The definitive one-volume handbook covering the year's most significant cases and developments and trends in licensing

Manual for the Handling of Applications for Patents, Designs and Trade Marks Throughout the World (Trademarks)

Profiles patent and trademark laws and regulations in over 230 jurisdictions and regional systems written by practitioners from each country.

Trademark and Copyright Disputes: Litigation Forms and Analysis

Organized in the sequence of litigation, provides timesaving, practice-proven forms, checklists, and analysis that help handle an intellectual property dispute.

Trademark Law: Protection, Enforcement and Licensing

Practical treatise from a fully integrated legal and business perspective that walks you through the major areas of trademark practice.

Trademark Law Guide

Federal and state laws and regulations, full text of court and agency decisions, and incisive explanations on all aspects of federal trademark law.

PATENT

Business Method Patents

Covers this new and important type of patent based on the landmark State Street Bank case.

Drafting License Agreements

Twenty-three renowned experts provide in-depth licensing know-how, drafting techniques, time-saving clauses and provisions, and full-length model license agreements.

Drafting Technology Patent License Agreement

Advice on implementing a patent licensing program, evaluating a patent portfolio, formulating a licensing strategy, understanding due diligence issues and recognizing crucial clauses in patent licensing agreements.

Epstein on Intellectual Property

Provides up-to-date coverage of the law of trade secrets, copyright, trademarks and patents.

Generic and Innovator Drugs

Indispensable and practical insights into the FDA approval process including comprehensive coverage of abbreviated new drug applications.

Handbook of Intellectual Property Claims and Remedies

A detailed guide at how to maximize or minimize possible remedies at all stages of litigation, from pre-filing decisions through appeal.

Intellectual Property Legal Opinions

Covers all forms of IP legal opinions including patentability, infringement, validity, corporate due diligence, and litigation.

Intellectual Property Litigation: Pretrial Practice

Up-to-date, comprehensive case analysis and a clear framework for streamlining the procedural requirements, issues and phases of pretrial litigation practice.

IP and Antitrust

Addresses the relationship between intellectual property law and federal antitrust law, covers antitrust as they relate to patents, trademarks, and copyrights.

IP Law Daily

Expert analysis and summaries on intellectual property cases, regulatory or statutory developments and breaking news delivered daily to your inbox.

Law of Chemical and Pharmaceutical Invention

Directly quoting case law and using diagrams of chemical structures to eliminate confusion, clarifies the concepts and processes surrounding both patent and nonpatent protection.

License Agreements: Forms and Checklists

The one-step resource for all the critical tools needed to draft, negotiate, and finalize licensing deals more quickly and effectively.

Manual for the Handling of Applications for Patents, Designs and Trade Marks Throughout the World (Patents)

Profiles patent and trademark laws and regulations in over 230 jurisdictions and regional systems written by practitioners from each country.

Mueller on Patent Law

Covers the range of patent issues from patentability and validity through enforcement.

Patent Claim Construction

Suitable for all levels of expertise, analyzes the rapidly evolving rules of claim construction which will allow for the systematic and efficient identification of the rules most advantageous to the client's position.

Patent Disputes: Litigation Forms and Analysis

With over 60 full-length agreements, accompanying checklists, and commentary, this covers virtually every area of patent litigation in federal courts and before other administrative bodies.

Priority of Invention and the AIA

Leads you step-by-step through proper procedure at every stage of the interference process, before and after declaration.

Software Patents

Focuses on what a software patent is and the legal protection it offers, exploring Internet and e-commerce patents protection.

TECHNOLOGY AND INTERNET

Commercial Law of Intellectual Property

Comprehensive, in-depth analysis of the intersection of commercial law and intellectual property rights, including discussion of all applicable U.C.C. sections and other relevant legislation.

Computer and Internet Lawyer

Action-oriented guidance by nationally known computer lawyers to resolve the problems that face manufacturers, developers, distributors, and users of computer, telecommunication and online products and services.

Digital Communications Law

A complete compendium that helps you handle all internet-related legal issues—from questions of liability connected to sales, communications on the Web, to issues of taxation.

Drafting Internet Agreements

Annotated transactional forms for doing business on the Internet. Includes sample agreements for every area of Internet practice.

Global Privacy and Security

Concise, comparable country reports with up-to-date information for research into privacy and security, data protection laws, and the specific regulations of key countries around the world with practice tips.

Guide to Computer Law

Zeroing in on traditional computer law issues and emerging areas of regulation, it covers antitrust, privacy and security torts, electronic evidence and international agreements relating to technology.

International Encyclopedia of Laws: Cyber Law

Based on a common standard outline, looks at different legal subjects related to information and communication technology.

IP and Technology Law Journal

Authored by expert practitioners, solve practical problems with "how-to" articles on such topics as exit interviews, investigating the activities of former employees or competitors, and conducting an intellectual property audit.

IP Law Daily

Expert analysis and summaries on intellectual property cases, regulatory or statutory developments and breaking news delivered daily to your inbox.

Journal of Internet Law

The latest developments, regulatory changes, commentary and detailed case analysis in cyberspace law and their impact on business.

Law of Electronic Commerce

In-depth, up-to-the minute guidance and analysis on the implications of communications technology for commercial law and transactions. Covers issues from e-contracting, e-payments, e-commerce, cybercrime, and security, to lending, privacy, data collection, employer liability and workplace electronic communications.

Law of the Internet

With special focus on electronic commerce and online contracts, privacy and network security, intellectual property and online content management, covers the legal disciplines influenced by the Internet.

Scott on Information Technology Law

Real-world perspective on substantive areas that affect technology law practice and how to structure transactions involving computer products and services such as software development, marketing, and licensing.

Scott on Multimedia Law

Reliable analysis of the substantive law with practical, how-to advice on key topics and analysis of various trends and practices that take you from start to finish throughout the complex multimedia arena. x
