

Can you make  
**decisions**  
based on what you  
**don't know?**

Securely manage comprehensive  
evidence of compliance with  
**ComplyTrack Surveys**

Combined with the powerful and flexible ComplyTrack platform, the Surveys workflow provides the essential, custom survey tools required to document evidence of compliance across your enterprise as a crucial component of your risk assessment processes.

#### Know your regulatory stance

- Document proof of compliance for COI, audits or any regularly recurring regulatory activity across your entire enterprise.
- Utilize customizable templates to ensure secure, consistent and rigorous data collection for audits.
- Leverage past effort and gain learning over time with the ability to see prior answers for annual surveys.
- Collect information from or disseminate to thousands with a few clicks.

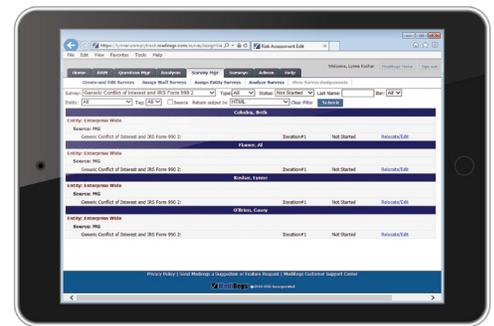

#### Make the right decisions at the right time

- Easily handle large-volume reviews or audits with multi-cycle and multi-iteration processing.
- Immediately implement surveys with easy-to-use survey building tools, including more than 20 different question styles, logic for contingent questions, attachments, and upload capabilities.
- Customize end-user instructions, including anonymous or attributed response structures.
- No maximum on number of users allows you to collect the maximum amount data from the maximum number of staff to support your complete decision making.

#### Get the information you need, when you need it

- Create custom surveys for any purpose, including conflict of interest, code of conduct, chart auditing, anonymous polling, vendor compliance, or targeted department auditing.
- Electronically assign surveys and groups of surveys to selected users and allow respondents to substantiate their answers by securely adding documentation and comments.
- Analyze and present the results in real time with robust reporting tools, or download survey data into Excel to analyze in any manner you see fit.
- Fully manage users, from data access to system privileges.

Ensure that your surveys, attestations and training are acted upon across the enterprise.

*"We have utilized Survey Manager to distribute and track over 1600 Conflict of Interest questionnaires. Having the ability to run an up-to-the-minute report of unanswered questionnaires, and the ease of resending the questionnaire to those non-responders made the process much easier. We also use Survey Manager to electronically send and track Regulatory updates to our operational management team. This allows us to track what updates we have sent, when we sent them, and if necessary, 'prove' that the operations team received the information. I couldn't begin to estimate the positive impact to our bottom line."*

—Compliance Manager, 4-Hospital System
