

Because a dynamic industry demands dynamic solutions

With the ever-increasing pace of health care regulatory change that includes the ongoing adoption of ICD-10, it's harder than ever for coding and reimbursement professionals to ensure proper code assignment up front — minimizing claim denials and maximizing efficiency.

Whether you are responsible for assessing medical necessity in scheduling or registration, coding medical records, running operations in a medical office, or working in the HIM department, CRC makes it easy to instantly verify diagnosis/procedure codes and see what is payable and covered from one place. Search across multiple code sets by code, description, or key terms, or use the NCCI Code Pair Checking tool to demystify code bundling issues.

	Coder's Resource Center (Basic)
Developed for	Basic coders, medical office staff, introductory coding students, scheduling, and registration staff
Coding Tools	Simple Code Explorer, ICD-10 Explorer, NCCI Checking PLUS 10 electronic codebooks
Specialty Content	WKL&B Coding Compliance Advisor and MediRegs Educational Webinars
