Refining the Search

**SEARCH SHORTCUT**
Hover over a Contents item and click the search magnifier to focus a search on a single document, a subtitle, subsection, or sections.

**RELATED ITEMS**
Access selected content related to the current document.

**SEARCH WITHIN**
When viewing a document, Search Within limits the scope to the current database. Click ‘Refine Search Scope’ to focus the search on selected sections.

**CONTENTS**
See the previous or next document in the table of contents.

**VIEW IN NEW WINDOW**
Expand document to full screen in a new browser window.

## Connectors and Operators

<table>
<thead>
<tr>
<th>Connectors</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Space</strong></td>
<td>A space between terms is automatically interpreted as ‘and’ connector.</td>
<td></td>
</tr>
<tr>
<td><strong>And &amp;</strong></td>
<td>Retrieves both search terms. <strong>Example:</strong> whistleblower and anti-retaliation</td>
<td></td>
</tr>
<tr>
<td>**Or</td>
<td>**</td>
<td>Retrieves either or both search terms. <strong>Example:</strong> child or dependent finds documents containing ‘child’ or ‘dependent’ or both. <strong>Example:</strong> false</td>
</tr>
<tr>
<td><strong>Not -</strong></td>
<td>Used to retrieve documents that contain the first term only if the second term does not appear. <strong>Example:</strong> RICO not Puerto Rico. <strong>Example:</strong> deed not revocation <strong>Example:</strong> Title: (loss seligman - fundamentals) finds the Securities Regulation treatise but not the Fundamentals of Securities Regulation treatise, both by Loss, Seligman and Paredes.</td>
<td></td>
</tr>
<tr>
<td><strong>w/#</strong></td>
<td>Specifies the proximity of search terms. <strong>Example:</strong> spoofing w/5 futures - finds ‘spoofing’ within 5 words of ‘futures’ regardless of which word occurs first.</td>
<td></td>
</tr>
<tr>
<td><strong>p/#</strong></td>
<td>Specifies the order of search terms. <strong>Example:</strong> spoofing p/5 futures - finds ‘spoofing’ where it precedes ‘futures’ by up to 5 words.</td>
<td></td>
</tr>
</tbody>
</table>

### Universal Characters

| **"..."** | Finds the exact phrase. **Example:** "intervening rights" **Example:** "search and seizure" finds documents including the phrase but does not use ‘and’ as a connector. | |
| **•** | Use * to take the place of multiple characters. **Example:** a'ment finds amendment, agreement, assignment, argument, etc. | |
| **?** | Substitute ? for a single character. Note: Using ? prevents synonyms from being included in your search. **Example:** advis?r finds either advisor or adviser. | |

### Search Operators

| **Author:** | Finds documents authored by specific person(s). **Example:** Author: (Hamilton or Romanek) and say on pay | |
| **Doctype:** | Finds cases, regulations, and other document types by source. **Example:** Doctype: Cases and Title: Young Reves | |
| **State:** | Identifies documents from a specific state. Note: Use full state name, not abbreviations. **Example:** State: California & partnership. | |
| **Title:** | Restricts search terms to the title of a document only. **Example:** Title: Halliburton **Example:** Title: Federal Securities Law Reporter and crowdfunding | |

### Date Restrictions

| **On** | **Example:** proxy on June 2010 finds documents with date in month of June 2010 | |
| **Before** | **Example:** proxy before March 31, 2015 finds documents with date up to March 30, 2015 | |
| **After** | **Example:** proxy after 12/31/2013 finds documents with date from 1/1/2014 on. | |
| **From ...To** | **Example:** proxy from July 1, 2010 to October 31, 2013 finds documents within a specific date range. | |

Singular and plural word forms, as well as synonyms, are automatically included in a search. Cheetah recognizes most typos and searches for the correct word.
