NEWS

Computer and Internet Lawyer

Guidance for resolving problems that face manufacturers, developers, distributors, and users of computer, telecommunication and online products and services.

Cybersecurity and Privacy News

Curated news on Cybersecurity and Privacy issues pulled from all Wolters Kluwer Daily products.

Cybersecurity Policy Report

Detailed, unbiased reporting on legislation, regulation, and policy rulings that goes deeper than the surface-level. Providing “early warning” coverage of policy developments, such as regulations as they are being proposed and legislation as it is being drafted, to give you time to assess their potential impact on your clients and business.

Financial Privacy Law Guide Newsletter

A complete and comprehensive resource to keep you up-to-date with the rapidly evolving and expanding area of financial privacy, including data security breach notification.

Guide to Computer Law Newsletters

Zeroing in on traditional computer law issues and emerging areas of regulation, with coverage of antitrust, privacy and security, torts, electronic evidence and international agreements relating to technology.

Intellectual Property & Technology Law Journal

Expert practitioners address practical problems with “how-to” guidance on such topics as exit interviews, investigating the activities of former employees or competitors, and conducting an intellectual property audit.

Journal of Internet Law

Latest developments in cyberspace law with detailed analysis of the latest cases and regulatory changes and their impact on your clients’ businesses.

Law Firm Memos

Daily feed including law firm memos, and timely relevant articles on legal, regulatory, compliance and commercial issues from leading professionals regarding cybersecurity issues.

TOOLS

Breach Notification Smart Chart

Review and compare state breach notification laws, specifying the topics and jurisdictions you need to create a customized report. With links to supporting primary sources.

Global Privacy and Security Law Comparison Chart

Compare privacy and cybersecurity topics, including applicable laws and enforcement, across multiple countries and jurisdictions, with analysis derived from *Global Privacy and Security Law*.

Marketing & Privacy Laws Smart Chart

Quickly compare marketing-related privacy laws across all 50 states and the District of Columbia. With links to supporting primary sources.

Medical Privacy Smart Chart

Pinpoint differences between state medical privacy laws, customizing topics and jurisdictions to suit your needs. With links to supporting primary sources.

State and Federal Employee Privacy Law Comparison Chart

Provides succinct summaries of state and federal employee privacy laws with links to supporting primary sources.

Evaluating Cyber Liability Insurance Smart Task

A step-by-step guide to evaluating a cyber-liability insurance policy.

Creating a Data Security Incident Response Plan Smart Task

An overview of breach response planning including an introduction to the essential elements of a data security incident response plan.

TREATISES

Defend Trade Secrets Act of 2016

Halligan, Krotoski, Stevens and Toren

A “must have” resource for anyone who needs to know how this new law will affect trade secrets litigation. In one comprehensive volume, it provides all the necessary analysis, primary source material and forms to jumpstart your knowledge of this new statute and its implications.

Digital Communications Law

Henry H. Perritt, Jr.

Practical guidance on a multitude of internet-related legal issues—from questions of liability connected to sales and online communications to issues of taxation.

Financial Privacy Law Guide

A complete resource with the full text of regulatory releases, agency letters, and court decisions from 2001 to the present to keep you up-to-date with this rapidly expanding area. Federal and state topics are explained, with case annotations included. Agency issuances that provide interpretive guidance and policy statements follow the laws and regulations.

Global Privacy and Security Law

Francoise Gilbert

Sixty-eight clear and concise country reports make this the single, necessary resource for research into global privacy and security, data protection laws, and the specific regulations of key countries. Includes expert analysis of every major directive, and precise practice tips.

HIPAA Compliance Handbook

Patricia I. Carter

Easy-to-understand explanations of the legal and regulatory requirements of HIPAA, offering analysis of the Administrative Simplification regulations that implement its provisions. Includes a state-by-state guide to medical privacy statutes.

HIPAA: A Guide to Health Care Privacy and Security Law

Katie Dillon Kenney

The perfect resource to remain compliant with HIPAA's exacting standards, providing analysis of the HIPAA rules, HHS regulations and other federal and state legal requirements, as well as practical compliance strategies. Updated forms and guidance on avoiding civil and criminal penalties.

International Encyclopedia of Laws: Cyber Law

A series of national monographs, treating the different legal subjects related to information and communication technology on the basis of a common standard outline.

Law of Electronic Commerce

Jane Kaufman Winn & Benjamin Wright

This cutting edge legal resource provides practice pointers and in-depth, timely analysis of electronic contracting, payments and lending; intellectual property rights and rights in data, privacy and data collection; E-business regulation under antitrust, trade practices, securities and banking laws; taxation of electronic commerce; and computer crime, security and liability.

Law of the Internet

George B. Delta & Jeffrey H. Matsuura

A comprehensive overview of internet law offering everything necessary to navigate the myriad of topics related to the Internet. The authors identify the legal issues that arise from the use of the Internet and its applications, providing incisive analysis of how existing law applies.

Libel and Privacy

Bruce W. Sanford

One of the nation's leading First Amendment attorneys provides media counsel with up-to-date information on how to avoid litigation, the "public person," settlement and pretrial tactics, winning trial tactics and cost minimization techniques. With ample case analysis and a complete assessment of how the U.S. Supreme Court is now approaching constitutional libel law and setting the boundaries for invasion of privacy suits.

Privacy and Cybersecurity Law Deskbook

Lisa J. Sotto

Authored by one of the world's foremost legal practitioners in the field, this is an essential compliance resource for every privacy officer and attorney involved in managing privacy and data security issues. It offers thorough, practical, sector-specific guidance that provides a roadmap for navigating the complex and emerging areas of privacy and cybersecurity law, and minimizing the impact of data breaches.

Scott on Information Technology Law

Michael D. Scott

Whether you're an experienced IT lawyer, a transactional or intellectual property attorney, an industry executive, or a general practitioner, you'll find practical, expert guidance on identifying and protecting intellectual property rights, drafting effective contracts, understanding applicable regulations, and avoiding civil and criminal liability.

Scott on Multimedia Law

Michael D. Scott

Based on years of professional experience, the author combines reliable analysis of the substantive law with practical, how-to advice, including insightful discussions of intellectual property rights, licensing, vendor and distribution agreements, and privacy and publicity law. With more than 60 forms covering numerous transactions across a wide variety of media.

Securities Regulation in Cyberspace

Howard Friedman

Expert analysis of the interweaving of technology and the securities laws addressing electronic delivery of disclosure, and the state and federal regulation of the offering of securities electronically, both domestically and internationally.

Post-Reform Personal Data Protection in the European Union: General Data Protection Regulation

Mariusz Krzysztofek

Authored by an experienced Data Protection Officer, this comprehensive analysis covers all principles of personal data processing, obligations of data controllers, and rights of data subjects in the context of General Data Protection Regulation.

International Cybersecurity and Privacy Law in Practice

C. Tschider

A legal approach based on industry best practices for creating and managing effective cybersecurity and privacy programs, including how to identify threats, manage vulnerabilities, and respond to incidents; data controller accountability; transparency and consent; rights of revocation, erasure, and correction; and record retention.

The Legal Regulation of Cyber Attacks

I. Iglezakis

Thorough analysis of the legal regulation of attacks against information systems in European, international, and comparative law contexts, addressing practical issues as well as the conflict of cybercrime investigation and prosecution with fundamental rights to privacy and freedom of expression.
