**Additional charge for data export*

Making Connections to Build Relationships

Are you spending valuable time researching information on corporate counsel only to find it outdated, unverified or incomplete? Now there's a better way to search!

Corporate Counsel Profiler, from Wolters Kluwer Legal & Regulatory, is the most comprehensive verified database for North America's in-house legal departments, providing access to thousands of corporate counsel biographies and corporate profiles that can be sorted and extracted in the way that best fits your business needs.

Quickly and easily search verified information, create customized lists, generate reports, and link directly to contacts, all within one simple tool. Corporate Counsel Profiler will help you confidently make the connections that build relationships!

Who can benefit from the Corporate Counsel Profiler?

- Large Law Firms - Gain competitive intelligence, connect to grow your practice
- Corporations – Link to peers, stay current on industry trends, identify strategic networking opportunities
- Law Schools – Connect with alumni, seek out internship and recruitment opportunities
- Legal Recruiters - Identify top talent and generate lists for recruitment activities

Your Source for Verified, Comprehensive, and Fast Results!

- Search and browse information on 22,000+ corporate counsel
- Acquire company details from thousands of corporations
- Extract information or email data directly from the tool
- Easily sort information according to your workflow needs
- Create customized lists, generate reports, and link to contacts

Conducting searches on Corporate Counsel Profiler is easy. Simply log in, select your search parameters, and you'll have results in seconds.

Customize your parameters to select from within dozens of practice areas across multiple states or jurisdictions in a single search. Results can be further refined as needed for more specifically targeting.

You can quickly locate attorneys by name or company.

Link to corporate websites, or email addresses.
