

Your single
source for
compliance
and regulatory
research

MediRegs Compliance Suite

Developed specifically for healthcare compliance officers, reimbursement analysts, fraud specialists, privacy officers, and auditors, the **MediRegs Compliance Suite** lets you conduct targeted searches of our robust, up-to-date compliance and reimbursement content and leverage powerful tools and calculators, all from one online location.

- Use the unparalleled depth and breadth of up-to-date regulatory content, analysis and support, created for health care professionals by health care professionals, to identify issues and keep up with the regulatory changes that introduce compliance risk.
- Customize your daily and weekly “What’s New” email alerts by subject, regulatory agency, state and/or document type to keep you out in front of activities specifically impacting your organization.
- Web-based, quick to implement, always on, and available on any device for on-the-spot decision support.

NOW AVAILABLE ON
THE COMPLETELY
REDESIGNED
MEDIREGS PLATFORM!
The MediRegs
Compliance Suite is
a robust collection
of the up-to-date
regulatory data
and tools needed
to support informed
compliance and
reimbursement
decisions.

With the ever-increasing pace of healthcare regulatory change, it's harder than ever for compliance professionals to keep pace — which can put organizations at risk. From program reviews to daily regulatory changes, MediRegs Compliance Suite gives you the tools you need to make confident decisions.

Access the enhanced table view of What's New and Week in Review using the "view all" link. Easily sort by Date Posted, Library, or Document for the last 3, 15, 30 or 60 days.

Easily perform fast Local and National Coverage Determinations (LCD/NCD) searches by simply clicking the NEW Coverage tab. Tailor your searches to your relevant states and simultaneously search coverage articles and Medicare contractor bulletins.

Our enhanced NCCI Code Pair Check gives you easy access to active and inactive edits in one easy to understand table. From one view, you can quickly determine whether the code pair edits and modifiers apply, as well as the maximum reasonable edits for a code.
