Thousands of new bills are introduced in each session of Congress—use Wolters Kluwer’s AI-driven Predictive Outlook algorithm to quickly focus on the new developments most likely to impact your clients. The Federal Developments Knowledge Center’s Bill Detail page puts critical details at your fingertips.

The Bill Detail page includes the official Congressional Research Services provided summary and Wolters Kluwer editors’ authored synopsis for high-profile bills.

Click to view original bills and resolutions which is at the top of the page.

Full-text analysis with highlighting shows how the language used in each section affects the model’s probability ranking.

The Predictive Outlook assessment shows two numbers; the first indicating the likelihood the bill will pass the current chamber, and the second showing likelihood of ultimate enactment.

SIC Industry Impact. Know which industries are most likely to be affected, positively or negatively, for a given bill with Skopos Labs A.I.

Citation Analysis identifies U.S. Code sections cited in the pending bill.

The Bill Breakdown illustrates the top political, economic, and timing factors influencing the positive/negative outcome of the prediction.
Federal Developments Knowledge Center includes flexible search capabilities—simultaneously search official source documents from the White House, Congress.gov, and the Federal Register, along with news and Wolters Kluwer analysis. Easily filter and sort to find what you need quickly.
