The Cybersecurity Dashboard, exclusively from Wolters Kluwer.

Cheetah™ Cybersecurity & Privacy Law Suite provides a **smartly** balanced dashboard of expert analysis, compliance and practice tools, current awareness and legal research to help you understand the issues, manage the risks and advise your clients with confidence. Highlights include:

Current Awareness: Stay on top of the latest developments with daily U.S. and global news sources, including Wolters Kluwer's *Cybersecurity Policy Report*.

Hot Topics: Quickly access all key content for major developments such as **CCPA** and **GDPR**.

Smart Charts: Choose your jurisdictions, specify your subtopics and streamline your research in seconds, with customizable comparison charts on consumer privacy, breach notification, data protection, global privacy laws, and much more.

SmartTasks: Review step-by-step checklists, with practice considerations, sample forms and draft language, to facilitate a thorough and efficient approach to key compliance tasks.

Enforcement Actions: Review the latest with our new database of SEC and FTC privacy enforcement actions.

Expert Analysis and Guidance: Consult an extensive library of practice guides, treatises and journals including *Privacy and Cybersecurity Law Deskbook* (Lisa Sotito), *Global Privacy and Security Law* (Francoise Gilbert), our new journal *Global Privacy Law Review* and more.

Federal, State and EU Primary Sources: Link directly to the underlying laws, regulations, directives and guidance.
