

# Customize your **Cheetah™** Setup for faster access to answers

[wkcheetah.com](http://wkcheetah.com)

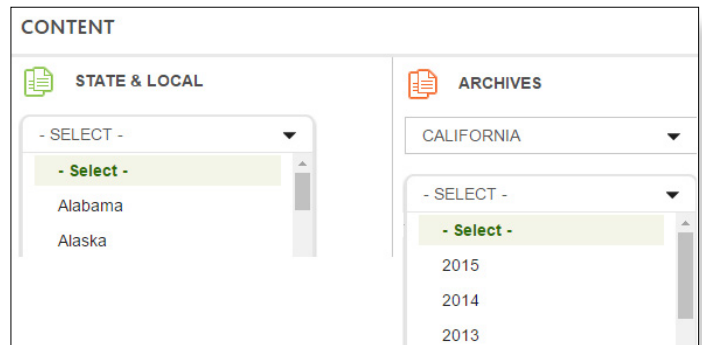

**SITE PREFERENCES** - Customize your default Practice Area. Click your user name, (in top black menu bar) and **Site Preferences** to select a default Home Page. (Available if your subscription includes content across multiple Practice Areas).

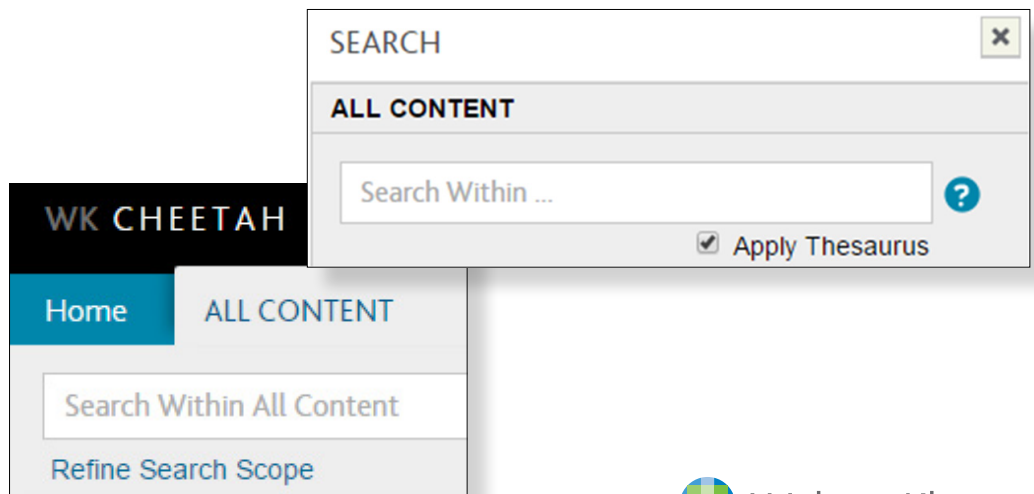

**CONTENT** – Tailor the CONTENT displayed on a Practice Area dashboard, so that all materials you use frequently are easily accessible. Click , select a Group, either select material you want displayed or check box to hide the group, and click **SAVE & CLOSE**. Or use the **Customize** command after clicking **SEE ALL** for a specific section.

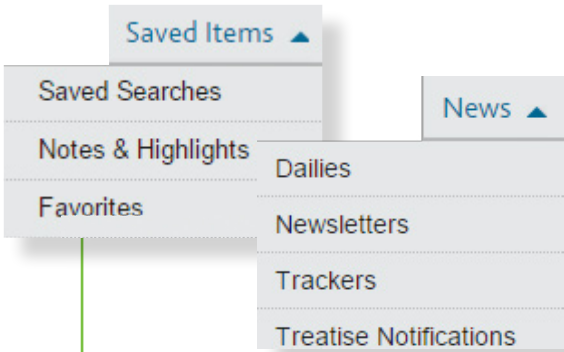

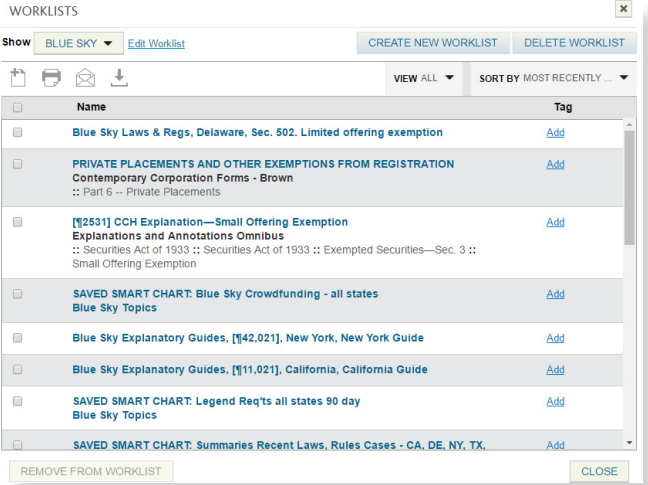

**DROP-DOWN MENUS** – Select items from drop-down menus and they will persist until you change them.

**THESAURUS** – Synonyms are automatically included in Cheetah searches. To exclude synonyms, open Refine Search Scope, uncheck 'Apply Thesaurus', and run your desired search. Synonyms will be excluded from all future searches in all practice areas until you re-check 'Apply Thesaurus.'

**WORKLISTS** - save links to documents, menu topics, and Smart Charts into Cheetah folders for fast access in future.

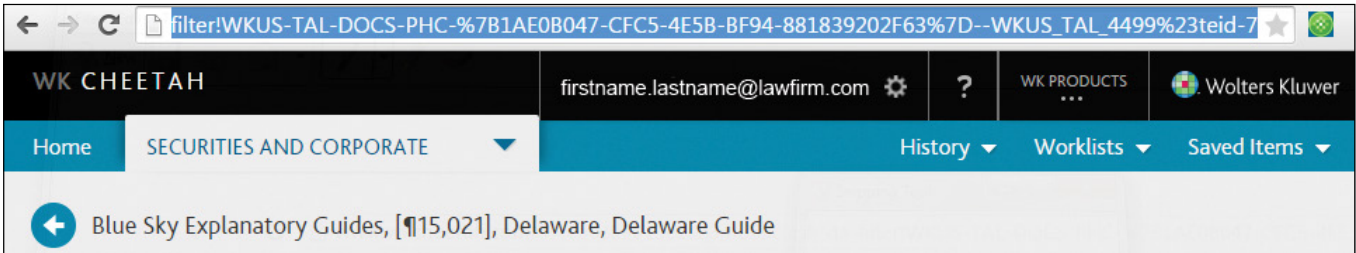

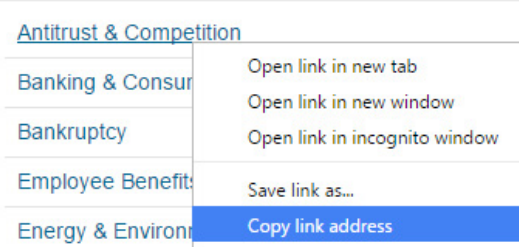

**SAVED ITEMS** - re-run your Saved Searches, view/access your Notes & Highlights, and link to documents/menu topics in your Favorites.

**NEWS** - stay current with new developments by signing up for email delivery of selected news items within your subscription.

**LINKS**

- Right-click on a title from a dashboard and use Browser commands to copy URL.  
*For example: Antitrust & Competition dashboard link address = <http://www.wkcheetah.com/#/home/Antitrust>*
- Copy the Browser URL for a Cheetah document or search results list and paste into application, create Desktop shortcut or Browser Favorite.

**PRACTICE AREAS**

*Note: if documents are removed or the URL changes, the link will revert to the 1st document in that database.*
